NAO: CMIP6 MPI-ESM1-2-LR (r1i1p1f1) - EOF3
1850-2849 JFM 12.0%

Everything worked without errors. The results look the same, although they are not identical (the 3rd NAO EOF came out to have a negative center of activity with my old code and a positive one with the new code version. Patterns look the same though.
