Meeting of the Technical Steering Committee (TSC) Board

Wednesday, Sep 6th, 2023
11:00am ET

Antitrust Policy Notice

- Linux Foundation meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.

- Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at http://www.linuxfoundation.org/antitrust-policy. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrove of the firm of Gesmer Updegrove LLP, which provides legal counsel to the Linux Foundation.

THE **LINUX** FOUNDATION

Agenda/Updates

- Announcements, upcoming talks and deadlines
  - ~~ISC BoF scheduled for Monday, May 22nd 4 PM (Europe/Berlin)~~
    - ~~Chris S., Adrian, and David~~
  - ~~PEARC BoF accepted!~~
    - ~~Chris and Derek~~
  - SC BoF submitted
    - Chris, Adrian, Jeremy, Derek, David
    - Rejected

- Debian naming conventions

- Who needs funds for SC?

- Release updates

- Confluent demo

- Upstream software and retiring OHPC packages next meeting

Debian naming conventions and SC travel

- Debian package names
  - For the RPM world, we name our packages after RHEL naming conventions and postpend the –ohpc string
  - SUSE and OpenEuler thus inherit the EL names
  - For Debian packages, do we use the EL names or do we use the Debian names with the –ohpc string at the end?

- Who needs SC travel?
  - Adrian, David, Jeremy, Chris
  - Anyone else?

Release Updates

- EL 9.2, Leap 15.5, and OE 22.03 will be released as 3.0 with WW3

- WW4 documentation coming with 3.1 for the SC23 release

- 2.7 will just be EL 8.x between now and SC23

- "Everything" works (pmix turned off for PBS on all 3 distros)

- ARM vendor compiler packages passing tests

- ARM testing is complete

- X86 testing is complete except Leap 15.5 + OpenPBS

- http://test.openhpc.community:8080/job/3.x/

- http://repos.openhpc.community/.staging/OpenHPC/3/
